

## BROW AND LASH TINTING AFTERCARE

### Maximize Lash & Brow Tint

1. **Do not touch** or rub your eyes, eyelashes, or eyebrows immediately after the treatment
2. **If redness or irritation occurs** apply a cool damp cotton compress to the eye area. If symptoms persist for more than 24 hours seek medical advice
3. **Effects of the tint** will start to diminish within 2 to 3 weeks as hair grows out and the tint color fades. Strong sunlight/UV light can make the tint color fade faster
4. **Avoid washing/wetting** your hair, eyelids, eyelashes, eyebrows, or swimming for 24 hours
5. Use gentle facial cleanser or eye makeup remover and avoid exfoliating cleansers or those products containing AHA's and oil
6. Do not apply makeup or mascara to lashes or receive any other eye treatments for at least 24 hours after the lash or brow tinting treatment.
7. Use gentle facial cleanser or eye makeup remover

**Please contact us if you have any further questions regarding any of our treatments**
